Summary

Frontend Web Developer specializing in **Vue.js**, **Nuxt.js**, and **TypeScript**, with experience in building scalable, AI-integrated web applications. Focused on creating performant solutions with clean, maintainable code and exceptional user experiences.

Experience

Frontend Web Developer

Jan 2025 - Present

Freelance | Remote

- Developed scalable web applications using Vue.js, Nuxt.js, TypeScript and TailwindCSS for diverse client projects
- Integrated AI-powered features to enhance user productivity and application functionality
- Delivered projects on time with a 100% client satisfaction rate through iterative feedback and agile development practices
- Built comprehensive documentation platforms with real-time preview and search capabilities

Skills

- Vue.js
- Nuxt.js
- TypeScript
- TailwindCSS

Projects

Keepdotdev | Code Documentation Platform | <https://keepdotdev.vercel.app/>

A comprehensive code documentation platform with AI-powered assistance for developers

- Built intuitive documentation creation interface with Markdown support and real-time preview functionality
- Implemented AI-powered code interaction features to boost developer productivity and learning

- Developed advanced search system enabling quick retrieval of code and documents by title and description
- Designed clean, user-friendly interface optimized for developer workflow efficiency

Examine | Assessment Management Platform | <https://examine-app.vercel.app/>

An exam management platform for instructors to create, publish, and analyze assessments

- Implemented automatic grading system using instructor-defined answer keys, significantly reducing grading time
- Designed real-time analytics dashboards to monitor candidate performance, participation rates, and assessment progress
- Created instant feedback mechanisms for candidates, including scores, time metrics, and detailed answer breakdowns

Stash | Productivity Hub | <https://stash-tool.vercel.app/>

A productivity hub to centralize tools/resources (links, videos, images and PDFs) in one workspace, reducing tab clutter

- Implemented customizable categories and keyword-driven search system to optimize resource retrieval time
- Designed minimalist interface with PrimeVue components for real-time previews of stored resources, enhancing user efficiency
- Built comprehensive resource management system supporting multiple file types and formats

Education

[AltSchool Africa](#)

Sep 2023 - Sep 2024

Diploma Frontend Engineering
